

## Classic Domke, with a rugged look.

Like your favorite pair of jeans, Domke bags get better with age. And with the new Domke RuggedWear™ collection you don't have to wait. Domke RuggedWear Bags use an exclusive canvas material coated with waxes and oils, to produce a unique distressed and weathered look right from the start. The treated fabric protects it against inclement weather, but retains the breathability of cotton.

If you want your Domke RuggedWear™ bag to keep its original appearance, RuggedWear Refinishing Wax easily restores its finish like new. Keeping it ready for rugged use.

*Environmentally Friendly: All RuggedWear bags are manufactured free of hazardous solvents, and include food and pharmaceutical grade waxes and oils.*
